EDUCATION

Queens College, City University of New York
Bachelor of Arts in Computer Science

Aug. 2023 – May 2027
Queens, NY

Tech Flex Leader
America on Tech

Sep. 2022 – June 2023
Manhattan, NY

- Created websites using HTML, CSS, Bootstrap, JavaScript, and APIs, both independently and collaboratively with peers, and effectively presented the developed websites.

Break Through Tech Summer Guild
Giant Machines

July 2022 – Aug. 2023
Manhattan, NY

- Built functional web pages with HTML, CSS, Bootstrap, and JavaScript and collaborated in a group to develop web applications for live demonstrations.

Summer Intensive
All-Star Code

June 2021 – Aug. 2021
Manhattan, NY

- Successfully completed programming projects both independently and within a group, utilizing skills in HTML, CSS, Bootstrap, JavaScript, React, Git/GitBash, and p5.js for website development and interactive applications.

EXPERIENCE

Front-End Web Engineer
Globalizing Gender

June 2023 – Aug. 2023
Manhattan, NY

- Developed responsive web applications with HTML, CSS, Bootstrap, and JavaScript in Visual Studio Code, ensuring cross-browser compatibility and user-friendly interfaces, while collaborating effectively to achieve project goals and user satisfaction.
- Managed Git version control for organized and collaborative development, actively contributing to Agile methodologies, including sprint planning, stand-ups, and iterative delivery, while prioritizing user value and continuous improvement.
- Proficiently navigated files, executed scripts, and optimized development environments using Bash terminal, enhancing productivity through automation and streamlined workflows while ensuring seamless operations.
- Used Figma for collaborative UI design, facilitating real-time collaboration, version control, and effective communication in cross-functional teams, ensuring a smooth design-to-development transition through iterative processes.

PROJECTS

PokeDex | *HTML, CSS, Bootstrap, JavaScript, Poke API*

April 2023 – May 2023

- Designed and developed a responsive Pokedex website using HTML, CSS, Bootstrap, JavaScript, and the Poke API, offering an interactive platform for exploring and discovering Pokémon information.

Simple Pong Game | *HTML, CSS, JavaScript, p5.js*

July 2021 – Aug. 2021

- Crafted and programmed a dynamic single-player ping pong game utilizing HTML, CSS, JavaScript, and p5.js, providing an immersive and interactive gaming experience. Demonstrated proficiency in web-based game development and user interface design, delivering an engaging gaming application.

TECHNICAL SKILLS

Languages: Python, C++, JavaScript, HTML, CSS, Bootstrap

Frameworks: React, Redux, Tailwind, p5.js

Developer Tools: Git, Github, VS Code, Firebase, Figma
